

Autumn 2020 Conwy Valley Ramblers Footpath Maintenance Group Report

One of the things that makes the Ramblers different to other Walking Groups is joining the county council in ensuring the maintenance of the paths that we walk on. Apart from the four months of lockdown, our Footpath Maintenance group has met monthly throughout the year, clearing footpaths, installing way marker posts, erecting stiles and generally following up complaints and suggestions made regarding footpaths by members and by the general public, working in liaison with the Environment Roads and Facilities department of Conwy Council. We welcome all members who wish to help out on the monthly Footpath Workdays; the details are published in advance on the website. The photos of each work session have been put on the website, thanks to Andy Wilson. Many thanks to all those members who have helped out during the year.

(November 2019 – October 2020)

- Distance of Paths cleared: 15k.
- Number of Way marker Posts installed: 1
- Number of Stiles erected: 8
- Total number of work-hours: 195
- Number of participating volunteers: 9
- Number of sessions: 8
- Number of cancellations: 4 (all lockdown)

Kevin

Website report 2020

With such an unusual year Andy and I have had to make more changes than usual but we have hopefully kept things up to date.

Particular thanks to Andy for sorting out all the changes with the walks listing and as usual putting on our photos.

Joanna
